**DATE:** September 5, 2018

**TO:** Committee of the Whole (CS) – 9/11/18 COW

**FROM:** Andrea M. Podraza, P.E., CFM, Assistant City Engineer

**SUBJECT:** Main St. and Deerpath Rd. Intersection Improvements – Phase 3

- **Resolution 18-05-R - Authorizing execution of an Intergovernmental Agreement with Kane County for the Intersection Improvements at Deerpath Road and Main Street**
- **Resolution 18-107-R- Authorizing execution of the Local Agency Agreement for Federal Participation for Deerpath Road and Main Street Intersection Improvements Phase 3 Construction Engineering Services with the Illinois Department of Transportation**
- **Resolution 18-06-R – Authorizing execution of the Construction Engineering Services Agreement for Federal Participation in the amount of \$207,432.17 for Deerpath Road & Main Street Intersection for Phase 3 Construction Engineering Services with V3 Companies.**

## **Background**

The Deerpath Road and Main Street intersection improvements is part of the City’s long-term planning for traffic signals improvements. Several of the surrounding developments contributed funds to improve the intersection with traffic signals. Since Main Street is a Kane County roadway, the City partnered with the Kane County Department of Transportation (KDOT) to contribute to the proposed design, construction and construction engineering of the proposed improvements. The City and KDOT received an approval of the Project Development Report as a Categorical Exclusion, Group I on December 16, 2016 from the Illinois Department of Transportation for Phase I preliminary Engineering for the Intersection Improvements at Deerpath Road and Main Street. Phase 2 Engineering plans were near completion in November 2017 and anticipated to be put on the spring 2018 letting. Due to ROW acquisition delays and timing both agencies thought it was in the best interest to delay construction a year to get this work completed in one construction season instead of staging remain in place over the winter.

## **The Contract with V3:**

After the phase 2 design engineering was near completion, the City Staff requested “Statement of qualifications (SOQ)” for phase 3 construction engineering services on our website, following the new QBS process. The SOQ requested that consultants demonstrate their experience in roadway & traffic signal construction experience.

Nine firms submitted Statement of Qualifications and are listed below by ranking, with the highest qualified firm listed first.

- V3 Companies
- Lochner
- Baxter & Woodman
- TranSystems
- Thomas Engineering (tied)
- Patrick (tied)
- CMT, Inc.
- Ciorba Group
- Rempe-Sharpe

Following the Qualified Based Selection method, staff negotiated a contract with V3 Companies, Inc. of Woodridge in the amount of \$207,432.17. The City and KDOT have agreed to 50/50 cost share for Phase 3 construction engineering and Construction. The City’s amount of Phase 3 Construction Engineering will be \$25,929.02. The budgeted amount for Phase 3 Construction Engineering for 2018 was \$32,125, but since construction will not commence until 2019 the budget will be rolled over to next year. The engineer’s estimate for Construction is \$2,172,674 and the Local share is \$543,189 which is split 50/50. The City’s share of construction is \$271,594.50.

The City will to be the lead agency for the construction engineering portion of the project and will be invoicing KDOT for their percentage of the costs (50% of the Local Agency’s 25%). In return KDOT will be the lead agency for the construction portion of the project and will be invoicing the City for our percentage of the costs (50% of the Local Agency’s 25%).

The following table illustrates the construction and construction engineering totals and breakdown of Local and Federal Funding:

	<b>Federal Participation</b>	<b>KDOT Share</b>	<b>Batavia Share</b>	<b>Grand Total</b>
Construction Engineering	\$155,574.13	\$25,929.02	\$25,929.02	\$207,432.17
Construction	\$1,629,485	\$271,594.50	\$271,594.50	\$2,172,674.00

**CONSTRUCTION SCHEDULE**

1. Letting: This project will be let by IDOT on November 9, 2018.
2. Anticipated Construction Start: Typically it takes anywhere from 2-3 months after the project is let to get all contracts executed, hold a preconstruction meeting and begin construction. At this time we anticipate construction to begin sometime in March or April 2018.

Following the Illinois Department of Transportation requirements for federal funding, City and KDOT staff advertised the project via the City’s website and followed the QBS process. After receiving nine statement of qualifications the selection team selected V3 Companies, Inc. to submit scope of services followed by hours. V3 Companies, Inc. has worked on other traffic projects and

has successfully completed several federally funded projects through the Illinois Department of Transportation. Staff negotiated a preliminary contract with V3 Companies, Inc. in the amount of \$207,432.17. In order to receive I.D.O.T. review, the City must submit the desired consultant, the negotiated preliminary hours the preliminary cost and the Construction Engineering Services Agreement for Federal Participation. I.D.O.T will then review the negotiated hours and cost and make any adjustments as necessary. At this time, Staff recommends approving the I.D.O.T. Construction Engineering Services Agreement for Federal Participation for the Deerpath Road Bridge Widening and Rehabilitation, in an amount not to exceed \$207,432.17, with V3 Companies, Inc. subject to the Illinois Department of Transportation's review and approval.

In addition, Staff also recommends approval of the Local Agency Agreement for Federal Participation. By executing this agreement, the City is indicating that sufficient funds have been set aside to cover the local share of the project cost and additional funds will be appropriate, if required, to cover the Local Agency's total participation cost. Based on the preliminary estimates the construction engineering is 75% federally funded. Should the project costs increase above the approved 75% funding limit, the City & KDOT will be responsible for any dollar amount above that cost and split 50/50, as indicated in the IGA. The City's portion is \$271,594.50.

The Local Agency Agreement for Federal Participation amount will be subject to the Illinois Department of Transportation's review and actual construction costs.

**Agreement with Kane County:**

Previously the City of Batavia and Kane County Division of Transportation (KDOT) had an Intergovernmental Agency Agreement (IGA) for Phase I preliminary engineering which was approved through Resolution 14-19-R in January of 2014 with a subsequent IGA for Phase II design engineering approved through Resolution 17-20-R in March 2017. In order to precede with the remainder of the project the language from the original agreement needs to be updated for the final phases 3 and Construction Engineering.

Staff and KDOT negotiated an Intergovernmental Agreement (IGA) for the remaining phases of this project and attached hereto as 'Exhibit 1'. The exhibit indicates that the City of Batavia will be the lead on the construction engineering portion of the project while KDOT will be the lead on the construction portion of the project.

This project is being funded by Surface Transportation Programs (STP) funds and under STP funding rules, phase 1 and 2 engineering were 100% funded locally; construction and construction engineering is 75% federally funded and 25% locally funded. All local funding will be split 50/50 between the City and KDOT. The City and KDOT have received a commitment of \$2,120,250 from federal funds through STP funding.

Kane County already brought the IGA agreement to their Transportation Committee meeting on May 15<sup>th</sup> and then the County Board on June 12<sup>th</sup> where approval was granted.

**Recommended Committee Action**

Staff recommends that the Committee of the Whole approve the following:

1. Resolution 18-05-R Authorizing execution of the Intergovernmental Agreement with Kane County for Phase 3 Construction Engineering and Construction for intersection improvements at Main Street and Deerpath Road.
2. Resolution 18-107-R Authorizing execution of the Local Agency Agreement for Federal Participation for Deerpath Road & Main Street Intersection Improvements Phase 3 Construction Engineering Services with the Illinois Department of Transportation.
3. Resolution 18-06-R Authorizing execution of the Construction Engineering Services Agreement for Federal Participation in the amount of \$207,432.17 for Deerpath Road & Main Street Intersection for Phase 3 Construction Engineering Services with V3 Companies.

The Drug Free Workplace Act requires that no grantee or contractor shall receive a grant or be considered for the purpose of being awarded a contract for the procurement of any property or service from the State unless that grantee or contractor will provide a drug free workplace. False certification or violation of the certification may result in sanctions including, but not limited to, suspension of contract or grant payments, termination of a contract or grant and debarment of contracting or grant opportunities with the State for at least one (1) year but no more than five (5) years.

For the purpose of this certification, "grantee" or "contractor" means a corporation, partnership or other entity with twenty-five (25) or more employees at the time of issuing the grant, or a department, division or other unit thereof, directly responsible for the specific performance under a contract or grant of \$5,000 or more from the State, as defined in the Act.

The contractor/grantee certifies and agrees that it will provide a drug free workplace by:

- (a) Publishing a statement:
    - (1) Notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance, including cannabis, is prohibited in the grantee's or contractor's workplace.
    - (2) Specifying the actions that will be taken against employees for violations of such prohibition.
    - (3) Notifying the employee that, as a condition of employment on such contract or grant, the employee will:
      - (A) abide by the terms of the statement; and
      - (B) notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction.
  - (b) Establishing a drug free awareness program to inform employees about:
    - (1) the dangers of drug abuse in the workplace;
    - (2) the grantee's or contractor's policy of maintaining a drug free workplace;
    - (3) any available drug counseling, rehabilitation and employee assistance program; and
    - (4) the penalties that may be imposed upon an employee for drug violations.
  - (c) Providing a copy of the statement required by subparagraph (a) to each employee engaged in the performance of the contract or grant and to post the statement in a prominent place in the workplace.
  - (d) Notifying the contracting or granting agency within ten (10) days after receiving notice under part (B) of paragraph (3) of subsection (a) above from an employee or otherwise receiving actual notice of such conviction.
  - (e) Imposing a sanction on, or requiring the satisfactory participation in a drug abuse assistance or rehabilitation program by, any employee who is convicted, as required by section S of the Drug Free Workplace Act.
  - (f) Assisting employees in selecting a course of action in the event drug counseling, treatment and rehabilitation is required and indicating that a trained referral team is in place.
  - (g) Making a good faith effort to continue to maintain a drug free workplace through implementation of the Drug Free Workplace Act.
9. The ENGINEER or subconsultant shall not discriminate on the basis of race, color, national origin or sex in the performance of this AGREEMENT. The ENGINEER shall carry out applicable requirements of 49 CFR part 26 in the administration of DOT-assisted contracts. Failure by the ENGINEER to carry out these requirements is a material breach of this AGREEMENT, which may result in the termination this AGREEMENT or such other remedy as the LPA deems appropriate.
  10. When the ENGINEER is requested to complete work outside the scope of the original AGREEMENT, a supplemental AGREEMENT will be required. Supplements will also be required for the addition or removal of subconsultants, direct costs, the use of previously unspecified staff, and other material changes to the original AGREEMENT.

Prior to advertising for bids, the **LPA** shall certify to the **STATE** that all requirements of Titles II and III of said Uniform Act have been satisfied. The disposition of encroachments, if any, will be cooperatively determined by representatives of the **LPA**, and the **STATE** and the **FHWA**, if required.

- (8) To provide if required, for the improvement of any railroad-highway grade crossing and rail crossing protection within the limits of the proposed improvement.

The **STATE**, at its sole option, upon notice to the **LPA**, may place the debt into the Illinois Comptroller's Offset System (15 ILCS 405/10.05) or take such other and further action as may be required to recover the debt.
