

“Clean & Green”

Paramedic / Firefighter Dave Denison and Firefighter Mitch Vincent give Batavia Engine 2 a “Green Bath”.

The City of Batavia has joined many other Cities in the Chicago Metropolitan area in a program called “Clean Air Counts” in order to provide a cleaner, safer environment for their citizens. Batavia recently was awarded the Clean Air Counts Gold Communities Certification for the city’s efforts including a recently passed “Green Policy” which requires city departments to think and purchase green. The Batavia Fire Department leads the way by using environmentally friendly cleaning solutions at both Batavia stations including the soap used to keep all their vehicles clean.

For information on Eco-Friendly Car Washes, visit the City of Batavia Environmental Commission WEB Page www.cityofbatavia.net/environmental
