

CITY OF BATAVIA

MEMO TO: Government Services Committee
FROM: Bill McGrath, City Administrator
DATE: June 25, 2010
SUBJECT: "Bulldogs on Parade" concept presentation

We have been contacted by Steve McKenna and Kerry Massie on behalf of the park, school and library foundations, the citizen groups that try to augment the budgets of the respective governmental units.

They propose a "Bulldogs on Parade" project for summer 2010, and wanted to present and discuss the concept with you.

One option is to locate some or all on public property. To do so will require consent and this is a good time to be introduced to the idea, and perhaps later determine whether some conditions will need to be complied with for public safety.

This matter will be on the Wednesday, June 30, 2010 Government Services Committee agenda for presentation and brief discussion. Staff has not received any materials and will have to review the matter, including talking with other cities about their couches, cows, rain barrels and whatever other objects have paraded through their communities.

Please give me a call if you have any questions. Thanks. Bill McGrath
