RE: CARRIAGE CREST GROUNDWATER STUDY

Dear Resident:

In early September the City of Batavia approved an engineering contract for a study related to groundwater and surface flooding issues associated with the Carriage Crest drainage basin. One of the first phases of the study involves gathering data from the surrounding homeowners. The attached survey document will help the City, and our engineering consultant, to develop potential solutions for the drainage related issues that have been reported to us.

We know that everyone's time is very valuable. We certainly appreciate your efforts in completing the attached survey, providing us with as much data as you can and ***return the completed survey by November 15, 2019***. The survey can be returned to City offices or via email: gholm@cityofbatavia.net

The City will plan to hold one or more public meeting(s) once the study has progressed. The dates/times of the meeting(s) will be publicized when they are determined.

Please contact me directly if you have any questions related to the attached survey or the engineering study.

Sincerely,

Gary Holm, PE
Director of Public Works
City of Batavia
(630) 454-2309

City of Batavia Public Works Department Resident Flooding Survey

Purpose: The purpose of conducting this survey is to collect pertinent information to be considered during the professional engineering evaluation of the surface water and basement flooding issues in the City of Batavia.

Instructions: Please provide accurate responses to the questions regarding flooding issues associated with your residence. Please reference the diagram on the back side of this form. If you have additional information that you would like the engineering consultant to be aware of and consider during the analysis, then please include that in the space provided. Once you have completed the survey, please deliver the completed form via email or to the following location:

City of Batavia Public Works
200 N Raddant Road
Batavia, IL 60510

Questions: If you have any questions relative to this form, please contact Gary Holm, Director of Public Works, at (630) 454-2309 or gholm@cityofbatavia.net.

Meeting: At this time the City is in the data gathering phase of the project. The City plans to hold one or more neighborhood meetings throughout the course of the engineering study. Meeting dates will be publicized once they are established.

Name: _____

Address: _____

Contact Information:

Telephone: _____ Email Address: _____

Type of building / residence: Single Family _____ Duplex _____

Are you the: Owner _____ Tenant _____

How long have you lived here: _____ months / years

1. Has storm water ever flooded your property? Yes: _____ No: _____

If so, what were the limits of the flooding? Yard _____ Street _____ Basement _____ Other _____

Explain _____

2. In the past ten years, how many times has your home flooded?

Never: _____ 1 time: _____ 2 times: _____ 3 times: _____ 4 times: _____ 5 or more times: _____

If you have experienced flooding, how did the flood water enter your home (check all that apply)?

Sewer Drain: _____ Door: _____ Window: _____ Cracks in Wall: _____ Other: _____ N/A: _____

3. Approximately how long did it take before the water drained out of you basement / crawl space?

1 Hr or less _____ 1-4 Hrs _____ 5-8 Hrs _____ 9-12 Hrs _____
